

## ***GIGGLEBERRY FAIR AT PEDDLER'S VILLAGE***

(LAHASKA, PA)...**Giggleberry Fair** is a world of fun for the entire family. In addition to the spectacularly restored 1922 Philadelphia Toboggan Company **Grand Carousel**, this 10,000 indoor family fun center includes **Giggleberry Mountain**, a brand new interactive **Game Room**, **Giggles Discovers** and the **Painted Pony Café**.

The late Earl Jamison, founder/creator of Peddler's Village and grandfather of 18, strived to provide a wholesome, quality experience for children to be both educated and entertained. His goal was to create activities that children and adults alike would love, as well as activities that the entire family would enjoy together.

**Giggleberry Mountain** is the area's largest and most attractive indoor obstacle course, challenging for both children and adults. Its colorful and bright, three-story, six-level obstacle course provides endless family fun. Tens of thousands of foam berries fill the 60 by 30 foot building, with berry blasters and explosions delivering hours of entertainment. Fill the berry fountain and see its electrifying explosions of berries float skyward then hurry through the obstacle course's colorful obstructions of netting mazes and unusually sized and shaped berries. Coiling down all three stories is a custom-designed, enclosed slide – the largest ever produced by **Delta Play** (the world-wide leading supplier of innovative and interactive soft play equipment), as well as a side-by-side racing slide.

Giggleberry Fair launched an all new interactive **Game Room** this year with more than 40 of the newest redemption games out on the market, including the new Transformers, Bat Man Games and Crane games. All games are rated "E" for everyone. A cashless debit card system and self-serve kiosks add to the convenience and enjoyment for children and families.

**Giggles Discovers** consists of five interactive "edu-tainment" areas:

- **The Giggles Fire Station #1** encourages children to explore an authentic wooden fire truck, ring the fire bell, put on fire hats, jackets and boots, learn about community helpers from the fire safety videos and engage in all sorts of exciting fire-safety activities!
- **Lightspace Play** is a wall-mounted entertainment system that combines the latest display and interactive technologies to produce a recreational experience that will provide hours of fun for children of all ages.

- Children can stretch their dramatic imaginations and create make believe puppet shows with new puppet friends at the **Puppet Stage**.
- **The Waterway** provides interactive water fun with a Water Mushroom Fountain, Dam Tabs, Build-a-Pipes, Waterwheels, Horizontal Sprinklers, Water Currents Cilia and a Vertical Torricelli Pipes for lots of creative water play.

The **Painted Pony Café** offers a menu to include country pizza, hot dogs, chicken, fish and a salad bar. Specialty signature ice cream creations are also available.

**Giggleberry Fair** is the perfect place for any celebration. The **Grand Carousel**, a popular party location, expands its packages with a private birthday area. Giggleberry Fair has won the **Best of Bucks** award for Birthday Parties. Call the Birthday Party hotline at 215-794-4047 for more information on our Birthday Party Packages.
